the tail portion of the bird should be out over the edge of the table or over the operator's knee so it can be bent
downwards easily

unless this guy just has tons of money i doubt he would have just stumbled on a random person to kill a child.

empower patients and physicians to make smarter treatment decisions, and reduce the burden of disease

abusing a substance of any kind whatsoever can lead to the development of a physical and or psychological
dependency that can turn an individual's life upside down
